

# Welcome!

## **Everyone Does Everything:** Maximizing OTR for Active Engagement During Literacy Instruction

**Larissa Phillips, Ed.D.**  
**Kelly Urbani, Ed.D.**

“

LEARNING IS  
NOT  
A SPECTATOR  
SPORT

”

*Dr. Anita Archer*

# PARTICIPATION DURING THIS SESSION

## VERBAL

- Choral/Unison
- Individuals
- Partners

## ACTION

- Hand signals

## WRITTEN

- Short written responses via chat feature

## PASSAGE READING

- Silent or Whisper Read
- Choral Reading
- Cloze Reading

# OUR LEARNING INTENTIONS

## **Understand and define OTR**

- What are opportunities to respond, and how can they be described in your own words?

## **Recognize different types of OTR**

- What are the varieties of OTR, and how can they be used to engage all students?

## **Apply recommended response rates to instruction**

- What are the appropriate OTR rates per minute for different task types (drill/practice, simple, complex), and how do they influence student learning and behavior?

## **Examine effective ratios for engagement**

- Why is it important to balance whole-class (70%) and individual (30%) responses, and what does this look like in practice?

# ELEMENTS OF EXPLICIT INSTRUCTION

Content

Design of Instruction

Delivery of Instruction

- **Frequent Responses**
- Monitor
- Feedback
- Brisk Pace

Practice

# DEFINITION OF OPPORTUNITIES TO RESPOND

**Opportunities to Respond (OTR) refer to any instructional prompt or technique that actively engages students and encourages them to respond during lessons, such as verbal responses, written responses, physical actions, passage reading, or using technology. OTR aims to provide multiple structured opportunities for student interaction and engagement (Archer & Hughes, 2011).**

# ELICITING FREQUENT RESPONSES

Why is it important for teachers to elicit responses from students frequently?

# THE IMPORTANCE OF OTR DURING STRUCTURED LITERACY INSTRUCTION

Opportunities to Respond (OTR) are essential for fostering **student engagement** and enhancing learning outcomes in reading instruction. Research highlights the importance of OTR as a way to actively **involve students** in their learning process, thereby improving both **behavior and academic performance** (Sutherland & Wehby, 2001; Simonsen et al., 2008; Archer & Hughes, 2011; MacSuga-Gage & Simonsen, 2015).

**SUCCESS + VALUE = MOTIVATION**

# SUCCESS + VALUE = MOTIVATION

- Limit “Cold Calls”

# SUCCESS + VALUE = MOTIVATION

# **SUCCESS + VALUE = MOTIVATION**

- **Limit “Cold Calls”**
- **Non-Volunteers**
- **Think Time**
- **Scripted Programs**

# **SUCCESS + VALUE = MOTIVATION**

- **Limit “Cold Calls”**
- **Non-Volunteers**
- **Think Time**
- **Scripted Programs**
- **“No Hands Raised” Policy**

# NEW MOTO

Every day, in every class, every student is participating by, speaking, writing, or doing.

# RESEARCH RECOMMENDED GUIDELINES FOR RESPONSE RATES

## **DRILL AND PRACTICE ~ 8-12 OTR/minute**

- Rapid-fire, highly structured tasks (e.g., phonics drills, sight word practice)
- Builds fluency and automaticity through quick, accurate responses

(Stichter et al., 2009; Simonsen et al., 2010; MacSuga & Simonsen, 2015)

# RESEARCH RECOMMENDED GUIDELINES FOR RESPONSE RATES

## **DRILL AND PRACTICE ~ 8-12 OTR/minute**

- Rapid-fire, highly structured tasks (e.g., phonics drills, sight word practice)
- Builds fluency and automaticity through quick, accurate responses

## **SIMPLE RESPONSES ~ 3-5 OTR/minute**

- Basic recall or identification (e.g., literal comprehension checks, word recognition)
- Keeps engagement high while allowing quick processing

# RESEARCH RECOMMENDED GUIDELINES FOR RESPONSE RATES

## **DRILL AND PRACTICE ~ 8-12 OTR/minute**

- Rapid-fire, highly structured tasks (e.g., phonics drills, sight word practice)
- Builds fluency and automaticity through quick, accurate responses

## **SIMPLE RESPONSES ~ 3-5 OTR/minute**

- Basic recall or identification (e.g., literal comprehension checks, word recognition)
- Keeps engagement high while allowing quick processing

## **COMPLEX RESPONSES ~ 1 OTR/minute**

- Higher-order thinking tasks (e.g., inferences, analysis, predictions)
- Allows time for thoughtful, detailed student responses

# RESEARCH RECOMMENDED GUIDELINES FOR RESPONSE RATES

**70%** of responses should be **“everyone”**  
(all are saying, writing, doing)

**30%** of responses should be **“individual”**  
(non-volunteers)

(Sutherland & Wehby, 2001; Simonsen et al., 2008; Haydon et al., 2012)

**TRUE OR FALSE**

**The benefits of increasing opportunities to respond include increased time on task, increased learning, and reduced disruptive behaviors.**

**TRUE!**

**The benefits of increasing opportunities to respond include increased time on task, increased learning, and reduced disruptive behaviors.**

**AGREE OR DISAGREE**

**When examining opportunities to respond within a lesson, we should have frequent responses that involve all students and provide adequate think time.**

**AGREE!**

**When examining opportunities to respond within a lesson, we should have frequent responses that involve all students and provide adequate think time.**

**YES OR NO**

**During a lesson requiring simple responses, 1-2 opportunities to respond per minute would adequately engage students.**

**NO!** 

**During a lesson requiring simple responses, 1-2 opportunities to respond per minute would adequately engage students.**

# ELICITING FREQUENT RESPONSES

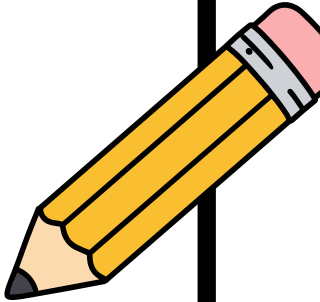

Why is it important for teachers to elicit responses from students frequently?

# OBSERVE

**Make a T-Chart on your paper.**

E	I

# OBSERVATIONS

**How many opportunities to respond did Dr. Archer provide?**

~~||||~~

# CALCULATING OTR

Everyone + Individual Responses  $\equiv$  OTR

OTR  $\div$  Minutes  $\equiv$  OTR per minute

Reflect..

- Were OTR guidelines met?
- Was there a balance of everyone vs. individual responses?

# Wrap Up

**Write down  
some bright  
ideas you  
have!**

**Opportunities to Respond can promote equity by giving all students, regardless of ability or background, a chance to demonstrate their knowledge and skills. When teachers ensure that each student has frequent and meaningful opportunities to engage, they help dismantle traditional power structures that often silence underrepresented students.**

**(Scott et al.,  
2014)**

# NEW MOTO

**Every day, in every class, every student is participating by speaking, writing, or doing.**
